

Dusan Dimic

Full Stack | Blockchain Developer

≥ artoh1124@gmail.com • Belgrade, Serbia

PROFILE

As a blockchain developer, I am a highly skilled software developer with expertise in designing, developing, and maintaining blockchain- based applications. I possess a deep understanding of cryptography, distributed systems, and consensus algorithms, which enables to create and implement effective blockchain solutions using various programming languages such as Solidity, Java, Python, and C++. I am also familiar with blockchain frameworks and platforms such as Ethereum, Hyperledger, and Corda. My job responsibilities include building decentralized applications (dApps) and DeFi, developing smart contracts, Web3, conducting security audits, and collaborating with cross-functional teams. Overall, as a blockchain developer, I am a valuable asset to any organization looking to leverage the power

EMPLOYMENT HISTORY

Blockchain Developer

Rexa PPL

of blockchain.

✓ Defi contract implementation using Pancakeswap DEX protocol on Binance Smart Chain.

✓ Development of Solidity smart contracts for NFT lending and renting Developed a semi-fungible Token smart contract based on ERC1155 standard.

✓ Plenty of experience with EVM-compatible smart contract dev tools such as Truffle and Hardhat.

✓ Deep understanding of large Defi lending and AMM protocols such as Compound and AAVE.

Skills: Blockchain · Cryptocurrency · Web3 · Go (Programming Language) · Ethereum · Smart Contracts · Solidity · Rust (Programming Language)

Frontend | Blockchain Developer

Rexa PPL

✓ Re-coded application using React, which shortened page load times by up to 65%.

✓ Designed the application architecture on TypeScript, React and Redux and accelerated the development rates by 15%.

✓ Utilized the Node.js and GraphQL to create APIs for both internal and external use, reducing the time to ship new front-end features by 4% Fresh Direct.

✓ Worked with UX/UI design teams to improve existing applications and increase conversion rates by 20%

12/2023 - present Belgrade, Serbia

03/2021 - 01/2023 Belgrade, Serbia Skills: Front-End Development · React.js · TypeScript · GraphQL · Ethereum · Smart Contracts · Node.js · Solidity

Full-stack Developer **FatCat Coders**

04/2017 - 12/2020 Belgrade, Serbia

FatCat Coders, a small app development company, is headquartered in Beograd, Serbia. They provide mobile app development, web development, e-commerce development, custom software development, and more and were founded in 2017.

Skills: Next.js · HTML5 · Vue.js · PHP · React.js · Tailwind CSS · Node.js · Redux.js

EDUCATION

Bachelor of Science (BS) University of Belgrade

04/2012 - 09/2016 Belgrade, Serbia

Programming language: Javascript, Python, C++/C, Java, PHP Subject: Network, Artificial intelligence, Recorgnize pattern, Recorgnize image, Embedded system, Distributed system..

SKILLS

React.js	_	Vue.js	
TypeScript		Next.js	
PHP(Laravel)		Tailwind CSS	
Node.js		PostgreSQL	
Smart Contract		Solidity	
Web3.js & Ethereum.js		AngularJS	
C#/WPF		MySQL	
Go		Ethereum	

LANGUAGES

Serbian English
